

# The Phinisi – Southern Thailand

## 4 Nights Itinerary

The following is a sample itinerary of where you might dive during your holiday with us. We wish to show you the very best diving but a number of factors can determine where we visit. Weather, tides, how busy a site is with other dive vessels all play a part in the Cruise Director's decision of which route the yacht takes. Whilst we attempt to ensure the number of dives we have scheduled is fulfilled, bad weather can hinder the yacht's ability to reach a specified dive site in good time. The safety of all on board is paramount and we always do our best in offering diving at alternate locations. The Cruise Director is happy to listen to requests from guests to visit or remain at certain sites and providing it is possible and the schedule allows, then guest's requests are respected.

### Schedule

Your Cruise Director will schedule up to 4 dives per day; 3 day dives and either a sunset or night dive. The diving day has a typical schedule as follows:

- Light Breakfast followed by a briefing & Dive 1
- Full Breakfast, relaxation followed by briefing & Dive 2
- Lunch, relaxation followed by briefing & Dive 3
- Snack, relaxation, followed by briefing & Dive 4
- Dinner (if Night Dive, it will be after dinner)

For your final day aboard, we schedule 2 morning dives and a single dive after lunch to allow plenty of time for off-gassing before disembarkation.

### Itinerary

**Koh Phi Phi** With mini-walls and shallow coral gardens predominating, there are a host of dive sites to choose from around the Phi Phi national Park. Hin Bida, Koh Bida Nok, Koh Bida Nai, Pilay Wall, Hin Dot and Ao Maya all offer something special. Wildlife is hugely varied across the sites with black tip reef sharks common, tigertail seahorses, ornate ghost pipefish, cornet fish, octopus, scorpion fish, blue fin trevally, barracudas and more.

## King Cruiser

The King Cruiser was a car ferry that used to travel between Phi Phi and Phuket. In 1997, 'the cruiser' hit Anemone Reef on her crossing and sank a short distance away. No lives were lost, but divers were left with a great wreck dive! While she is largely broken up now, she is covered with soft corals and hides some wonderful gems, as well as being home to several large schools of snapper. While currents can be strong and visibility sometimes challenging, this is a great site to dive.

## Shark Point and Anemone Reef

These pinnacles are part of the same reef system and are only a very short distance apart from each other. Both sites are covered with colourful soft corals and anemones with a variety of fish to suit all divers. From barracuda to seahorses and for the lucky ones of course, the iconic leopard shark!

## Koh Doc Mai

'Flower Island' is a tiny piece of sheer rock sat between Shark point and Phuket but, although it is tiny, dives here can provide divers with amazing memories! From a spacious cavern to frog fish, ornate ghost pipe fish and even bamboo sharks, Koh Doc Mai never fails to surprise.

## Racha Yai & Racha Noi

Racha Yai is an excellent trip for beginners and those that have not dived for a while. Indeed for any guests aboard carrying out Advanced Open Water courses on-board, Racha Yai offers the perfect opportunity for course dives, with sloping hard coral reefs, white sandy bottoms and a choice of wrecks on the west coast.

**THE PHINISI**  
C H E N G I S A O

Racha Noi has some of the best visibility of all sites in the area. Often described as a 'mini Similans' the granite boulder topography is also unique compared to other sites. It offers a choice of hard coral reefs, boulders with large swim throughs and the beautiful pinnacle on the south point of this island.

Strong currents can make the southern sites challenging, however, with a year round chance to see manta rays, it is worth the effort to dive here.

### **Koh Haa**

Possibly some of the most underrated diving in the whole of Thailand, Moo Koh Haa (literally 'five island group') sits almost halfway between Hin Daeng and Phi Phi and is part of the Ko Lanta National Marine Park. There are actually several dive sites around Ko Haa but the highlights are Ko Haa Lagoon, Ko Haa Neua, and Ko Haa Yai. Around these amazing islands you can see pinnacles, walls, boulders, caverns, and swim-throughs. Ko Haa lagoon is ideal for night dives, courses, and snorkeling, while The Chimney and The Cathedral offer things that you cannot see on other Thailand liveaboard itineraries with caverns, swim-throughs and chambers littering the sites. Ko Haa has varied marine life too, with ornate ghost pipefish, morays eels, octopus, hawksbill turtles, sea horses, marble rays, and sometimes even leopard sharks.

### **Hin Daeng & Hin Muang**

These two sites are pinnacles (translating directly as Red Rock and Purple Rock) in open ocean, reaching down to over 70m, and are best known for manta ray and whale shark encounters but, whether they are sighted or not, the sites also offer giant moray eels, pharaoh cuttlefish, schooling rainbow runners and snappers, barracudas, groupers, fusiliers and blue fin trevally. On the pinnacles, there are fields of magnificent anemones, walls of Hemprics soft corals, and huge gorgonian sea fans.

### **Top Side**

Along the route there are some incredible views from the boat including Phi Phi's famous beaches and limestone karsts climbing vertically from the ocean. There will be opportunities to leave the boat and take a sight-seeing trip on the dinghy.
